

	Item
Coal, classification.....	1106, 2224-2226, 2238, 2683, 5967
B.T.U. and by fixed carbon.....	7146
committee report.....	6677
completion, by fourth standard.....	2242
factors in selecting coal.....	2223
moisture determination for, discussion.....	2359
paleobotanical.....	7633
relation to industry.....	2229
report.....	2297, 2298, 2381-2383, 2417
standardization.....	2316, 2317
statistical.....	7828
clean, carbonizing results with.....	2222
cleaning, air-sand process.....	2708
comparison of methods.....	8491
drum-type dense-medium plant.....	2931
dry, effect on byproduct yields, coke properties, and gas yields.....	2299
feldspar liq.....	8508
cleaning, in dense-medium, measurement and importance of viscosity.....	8511
kerosene flotation process.....	2808, 2813
mechanical, aspects, discussion.....	4978
report.....	8490
use of oil.....	6105
cleaning equipment, separation, quantitative efficiency.....	8500
cleaning plants, pneumatic, regulations.....	6469
coke and coke-byproducts from, production.....	1843
coking, at low temperature.....	5385
coking, constituents.....	1687
deposits.....	7790
in Koppers type oven.....	4907
coking, process.....	7329
properties.....	7331
reserves, appraisal.....	946
minable, appraisal.....	7782
effect of oxidation on storage, carbonizing properties.....	854
effect of oxidation on properties.....	2340
washing.....	2703
coking properties.....	7331
determination.....	1081
effect of oxidation.....	6887
effect of resins.....	1049
effect of storage.....	6987, 6992, 7340
investigations.....	2253
relation of microscopic composition.....	7408
color, data.....	2728
combustible liquids of, from petroleum-bearing schists.....	7405
combustion, description.....	1413
process, study.....	6105
spontaneous.....	5956, 6108
committee report.....	2293-2296, 2441-2451, 2478, 2479
common language for, American standard.....	2211
components, microscopic.....	7634, 7635, 7638
composition, microscopic, relation to chemical, coking, and byproduct properties.....	7408
relation to spontaneous combustion.....	2684
tests, determination.....	2410
constitution.....	2238, 3816
developments.....	7047
history.....	7045
research.....	2300
consumption.....	7872
effect of oil on.....	7878
conversion, to gas, liquid fuels, and bulk organic chemicals, research and development.....	7488
to oil, data.....	6946
methods.....	7514
costs.....	327
crucible swelling tests, British standard method, discussion.....	585, 7136
crushing, growth.....	8580
trends.....	8575
cyclone operating factors and capacities, discussion.....	8498
cyclone washers for.....	8467
data.....	419, 820, 5003, 5421, 7857
delivery, report.....	4580
demand.....	2341
changes.....	7823
trend.....	7856
depolymerization, patent.....	6859
deposits, conservation, effect of mechanization.....	7780
description.....	7650
developments, Federal Government.....	2231
dewatering.....	1531
distillation.....	3763
high-vacuum, products.....	2108
distillation assays, at low temperature.....	5980
distribution.....	8569
control statistics.....	7835
domestic, classification.....	2230
composition.....	2236
domestic heating.....	7248
drying.....	1531, 5979
by artificial heat, coal-dust ignitions.....	916
eastern, ash from, fusibility of.....	7143, 7144
economics.....	6460
effect of chemicals.....	5646
electric furnaces and heaters, use in determining free-swelling index.....	7127
electron microscopy.....	4982

	Item
Coal, entrained, powdered, synthesis gas process, development.....	7089
expansion, relation to other variables.....	5538
expansion tests, precision.....	5538
exports, shifts.....	828
extraction, benzene pressure.....	1084
fine, bulk-oil concentration for optimum results.....	6102
cleaning, flotation process.....	8504
DSM screen performance.....	2909
entrained, carbonization.....	5962
drying.....	5962, 5978
fluidized, carbonization.....	5962
drying.....	5962, 5978
firing, in down-draft ceramic kilns.....	8522
metallurgical, discussion.....	2348
firing kilns, drafts, significance.....	7219
float-and-sink tests.....	2697
flocculation, for improving vacuum distillation.....	3909
flotation, importance of pulp density, particle size, and feed regulation, discussion.....	8482
flotation-cell capacities.....	2812
flow of gas through, discussion.....	6487
for byproduct coking.....	1900
for ceramic industry, properties.....	8515
for clay-plant kilns, properties.....	8519
for electrodes, in aluminum industry, market.....	1079
for firing ceramic products, selection, factors.....	6512
for gas, sulfur compounds in, factor in coal selection.....	1940
for metallurgical firing, discussion.....	2348
for power production.....	5059
for steam generating equipment, selection, discussion.....	5073, 5705
for synthetic liquid fuels, preparation.....	1523
for West Coast power generation, economics, discussion.....	4970, 5072
formation, variable coalification.....	6010
froth flotation of.....	6276
fuel, chemical survey.....	2322
fuels in.....	7482
fuel beds, with underfeed stoker, discussion.....	419
fuel oil from, production.....	1182
fusulin in, determination, chemical oxidation and petrography.....	7147
gas from, manufacture, economics.....	4241
gas in.....	7403
gaseous fuels from.....	6944
gasification.....	485, 2070, 2241, 2301
direct, significance.....	6987
kinetics, reaction rate equations.....	488
oxygen, processing problems.....	6030
thermodynamics.....	187, 2021
underground.....	818, 984, 2064, 2069, 2070, 2082, 2495, 2502, 2504, 2505, 4236, 4969, 6864, 6983, 6988
conference.....	2007, 2494-2497, 2499-2501, 2503
experiments.....	2061, 2063, 2065, 2068, 2494, 2499, 2501
Gorgas, Ala., experiment.....	5033
process, patent.....	2091
vortex reactor, patent.....	1631
determination.....	1873
survey.....	2279, 7487
gasoline from, production.....	2248, 2461, 4518
gasoline substitutes from.....	4947
germanium from, production, effect on air pollution.....	388
Government-owned plants, hand-fired furnace, equipment experience.....	2108
graphite-like layers in.....	7122
grindability, ball-mill method, discussion.....	8495
determination.....	8506
estimation.....	7121
methods, studies.....	8496
report.....	6645
study by Lea-Nurse air-permeability method, discussion.....	4367
hard, data.....	8406
hardness, report.....	8572, 8817
haulage, by truck.....	6109
heat, decomposition by.....	7855
effect, microscopic.....	995
recarburizing.....	1845
rate, effect on product yield.....	7830
relation to oil, gas, and water.....	1688
heating, spontaneous, effect of moisture.....	1867, 1869
study, ailiatic method.....	2071
heating tendencies, spontaneous.....	6303
high-calcite and high-pyrite, ash determination.....	6024
history.....	2090
hydrocarbon synthesis gas from, production, patent.....	5031, 5032
hydrocarbonization, for high B.T.U. gas.....	2116
hydrogen and oxygen content, relation of specific volume to.....	2544
hydrogen to carbon ratio, relation to banded constituents.....	2252, 2484, 5860, 7490
hydrogenation.....	7477
American research, discussion.....	6060
balanced, patent.....	8226
batch autoclaves with coke-oven gas.....	7602, 7620, 7621
Bureau of Mines experimental plant.....	8225
catalysts, batch autoclave tests.....	8216
distribution, studies.....	8221
mechanisms.....	7462, 7464
chemistry.....	2187
composition of gasoline from.....	7406
contact catalysts.....	8412
heavy oil from, notes.....	4190, 4191
high pressure, catalyst evaluation experiment.....

Corrosion, products	1411
resistance, stainless steel	2090
titanium	2990
titanium alloys, comparison with commercially pure titanium	6868
zirconium	2989, 2990
zirconium alloys	2989
selective, cracking, intercrystalline, discussion	6979
steel, by gases dissolved in water	8167, 8169
prevention, electrolytic method	1221
titanium, studies	2897
titanium metals, studies	2992
water for subsurface injection	8162
zirconium, studies	2897
zirconium metals, studies	2992
Corrosion products, identification	2032
Cox & Hanon, waterflooding equipment, Humboldt-Channute oil field, Kansas	4039
Creek County, Okla., oil fields, petroleum engineering	7043
Cresote oil, supply	947
Cresols, infrared analysis	2756
Cresol-silver-cineole complexes, fractional extraction, molecular formation in	3009
Cristobalite, heat capacity, at low temperatures	149
heat of formation	3908
Crucibles, bond clay for making	7541
fused-magnesia, forming	467
graphite, possibilities	3222, 3224
graphite for making	7541, 7549
liquid, induction furnaces for rotating, description	474
magnesium oxide, impervious	6671
refractory, laboratory, preparation	6074
vitreous, lithium alloy, and platinum, comparison, for determination of volatile matter in coal	1398
Crucible flake, graphite, flotation of weathered schists for	1245
Crucible swelling tests, for coal, British standard method, discussion	855, 7136
Counting error, relation to petrographic analysis by fragment counting	1185
Corrosion tester, results	581, 593
Corundum ores, evaluation techniques	1101
Corvusite, from carmelite region, data	3555
Cotton Valley field, Webster Parish, La., sand development	6946
Coulometer, copper, large currents, use with	6965
Crude oil, analyses	7366
midcontinent, quality	1717
natural gas in, solubility, Bureau of Mines investigation	4822
nitrogen in, determination	349
pressure buildup, test	7378, 7379
producer gas from, manufacture	3137
refining properties	357, 7373, 7374
characteristics	7372
Bureau of Mines analysis, significance and interpretation	7371
review	7344
subsurface temperature, relation to viscosity temperature, Appalachian region	7760
sulfur in data	615, 618
superfractionation, studies	7040
well interference	7378, 7379
Crude oil gas, Pacific Coast, producers	3136
Crude petroleum, experimental still, study	1390
protective action, metal porphyrin complexes exposed to gamma radiation	1948
Crude petroleum-water interfaces, adsorption, metalliferous substances	1883
Crushing, investigation, summary	3141
law of, discussion	1560
progress	1743
test observations	1298
Cryogenic laboratory, Bureau of Mines	4788
Cryolite, entropy	4384
heat capacity, at low temperatures	4384
heat content, at high temperatures	5774
heat of formation	1461
Cryostat, for precision measurement, at low temperatures	8132
Crystals, disposition of work energy	6112
Cupolas, dust in, air pollution control, equipment	4958
operation, anthracite for, suitability	2017
Cupric oxide, heat capacity, at low temperatures	5336
Cuprodioscizite, extraction of vanadium, lead, and copper from	1370
Cuprous oxide, heat capacity, at low temperatures	5336
use in fractionation combustion, of hydrogen-carbon monoxide, in gas mixtures	1037
Cut and fill stopping system, sublevel inclined, description	5258
Cutter, for nonferrous metals, sample	7387
Cuyuna manganese ore, differential high-temperature sulfatization	2717, 6197
Cyanidation, with sulfide-acid precipitation, effect of copper and zinc	4058
Cyanidation plants, accident prevention and first aid	8038
Cyanide, in blast furnaces, accumulation, economic significance	1585
Cyanide rash, explanation	8058
Cyanide solutions, carbon in, precipitating action	6238
copper in	1258
gold dissolution rate, studies	2152
sulfur in	1258
Cyanite-clay refractories, description	3402
equilibrium considerations	4900

Cyanogen, in illuminating gas, removal	6180
solid and liquid, vapor pressure	6116
Cyanogen compounds, effect on stability of sulfide minerals	7882
Cyclodihydrogenation, aromatic, benzoyl-tetrahydro-naphthalene, experiments	5853, 5858, 5871-5874, 5885, 5889
studies	5872, 5876
synthesis of fluoranthene	2543
Cycloheptane, chemical thermodynamic properties	7406
heat of combustion	2540
thermal properties, at low temperatures	2540
vapor pressure	2540
Cycloheptane alkylcyclopentanes, thermal data, at low temperatures	5839
Cycloheptatrienes, chemical thermodynamic properties	2540
thermal properties, at low temperatures	2540
vapor pressure	2540
Cyclohexane, heat of combustion	7406
thermodynamic properties	3870, 5838
Cyclone burner, horizontal, discussion	6379
Cyclone thickeners, coal slurry	8493
industrial applications	1935
performance, experimental, discussion	2718, 8499
Cyclone washers, for coal, western Europe	8487
for fine coal	1932
Cyclooctane, chemical thermodynamic properties	2540
heat of combustion	7406
thermal properties, at low temperatures	2540
vapor pressure	2540
Cyclooctatetraene, heat capacity	7066
heat of vaporization	7066
physical properties	2011
purification	2011
thermodynamic properties	7066
Cyclopentane, entropy	1918
heat capacity	1918
heat of combustion	7406
heat of fusion	1918
pseudorotation	5011
verification of concept	8024
thermodynamic properties	3870, 3024, 8038
Cyclopentane compounds, pseudorotation, verification of concept	8024
thermodynamics	8024
Cyclopentane-related molecules, pseudorotation	8011
Cyclopropane-ether-oxygen-helium mixtures, clinical and laboratory data	7715
Cyclopropane-oxygen explosions, prevention, by dilution with helium	4121, 7714, 7716
Cylinders, small refilling	3160
Cylinders of explosive, infinite, propagation of shock waves	803
Cylinder process, carbon black manufacture	6552
Cylindrical burners, burning-velocity measurement, compared with slot burners	7278

D

Dam materials, hydraulic-fill, particle size, importance and determination	6058
Damping capacity, high, structural alloys	6980
measurement, torsion pendulum, design improvement	4034
Darling process, electrolyzing sodium nitrate, explosion hazard	6446
Data evaluation, discussion	670
Davenport field, wells, pressure control	836
Deaner oil field, petroleum engineering, Oklahoma	4453
Debardeleben Coal Corp. mine, washery water, flotation treatment	2811
Defense, synthetics, role of	6970
Deflagration-to-detonation transition, method, study	2927
Delaware-Childers area, oil, secondary recovery	4073
Demagnetization, high-frequency, method	1874
Demart, Pierre, underground gasification of coal	984
Densimeter, for heavy-medium plants, development	5836
Densimeters, spectrum line, illuminator for	7302
Denver, Colo., subbituminous slack, properties	6976
Deposits, water-formed, analysis	5556
Design, high pressure, factors in	7093
Destructive distillation, water-gas tar-coal mixture, gas from	954
Detergents, oil industry, cleanout procedure use	4048
input rate aid	4047
for petroleum displacement	4046
polyoxyethylated nonionic, critical Micelle concentrations	3838
Detergent adsorption, nonionic, by radio tracer, spectrophotometric and surface-tension methods, comparative study	3838
Detergent solutions, displacement of petroleum, centrifugal testing, variables	1963
from sand	1962
waterflooding	1964, 1965
Detonating compounds, sensitivity to frictional impact	7007
Detonation, across air gap, propagation	6089, 6100
explosives, rate, photographic measurement	6098
in gases, description	3121
Detonation products, gaseous, gelatin dynamites, effect of oxygen balance on	4113
Detonators, electric, naval, standardizing	5488
initiating efficiency	3060
determination, miniature cartridge method	3059
short-delay firing, safe multiple-shot blasting units for, development research	4021
Detonators and fuse, description and use	3246
Detroit, air pollution control, progress	4923
