Meter, gummy, problem in gas industry.....	955
Methanation, description.....	3119
Methane, cold flames of.....	8022
combustion, maximum flame velocities, displacement of mixtures giving.....	1843
content in air, need for knowledge of, discussion.....	1539
content in coal-mine air.....	8532
continuous monitoring devices, development and research.....	4019

Item		Item	
Methane, conversion to carbon monoxide and hydrogen.....	3474	Methylpyrrole, from shale oil, identification.....	4024
entropy.....	7470	isolation.....	4024
free energy.....	7470	thermal reactions.....	4001
heat capacity, from boiling point to critical temperature.....	8303	Methyl-substituted anilines, partition coefficients.....	3005
hydrogen and carbon monoxide as source, production, catalyst for.....	6980	ionization constants.....	3005
ignition by electric spark, chemical action.....	1479	Methyl-substituted pyridines, ionization constants.....	3006
ignition by explosives, causes.....	6084	partition coefficients.....	3006
ignition by air-natural gas mixtures, by induction coil sparks.....	5236	Methyl-substituted quinolines, ionization constants.....	3006
in air, oxidation, activity of metal catalysts in.....	8538	partition coefficients.....	3006
in explosive gas mixtures, minimum ignition energies.....	623	Methylthiophene, in petroleum, identification.....	7718
quenching distances.....	623	Mexico, northwestern, oil regions.....	2843
in mines, apparatus for.....	1022	ores, testing laboratory, description.....	4076
in natural gas, extraction.....	3082	Pozza Rica, air pollution, accidents, data.....	4928
metallurgical reagent, use.....	5109	by hydrogen sulfide.....	4979
natural gas as source, preparation.....	7505	Mica, alterations by sulfide solutions.....	8191
oxidation, in presence of nitrogen oxides.....	7324	annual review.....	362, 1805, 1860, 3226, 5530
production from carbon monoxide and hydrogen, catalyst.....	6880	as strategic mineral, Bureau of Mines study.....	2518
pyrolysis.....	3022, 7358	batch reactions, role of fluorides.....	2060
synthesis of acetylene.....	7506	block, processing and marketing.....	7727a
reaction with steam.....	3024	economic study.....	7956
synthesis gas from.....	7459	film, processing and marketing.....	7731
thermal decomposition.....	4225	ground, technology and economics.....	7988
by carbon filament.....	7493	muscovite, purification.....	8051
use, reducing zinc ores.....	1748	use.....	8051
Methane-air-acetylene mixtures, flame temperatures.....	4128	hardness.....	834
Methane-air flames, extinction, use of chlorinated hydrocarbons.....	1477	report.....	7301, 7730
Methane-air-hydrogen mixtures, flame temperatures.....	4128	synthetic, ceramic properties.....	1359, 1363
Methane-air mixtures, explosibility, effect of pressure.....	1040	description.....	1355
effect of temperature.....	1040	dielectric properties.....	1359, 1363
ignition temperatures, effect of water vapor.....	4119	electric furnace, precision temperature control, data.....	3910
Methane-air-oxygen mixtures, flame temperatures.....	4128	hardness.....	834
Methane and methyl deuteride, conversion of deuterium to.....	5892	research.....	7967
Methane detectors, permissible, description.....	2978, 3950	Mica fluorides, role, in batch reactions.....	2000
Methane flames, propagation, oxygen requirements.....	4115	Mica fluosilicates, synthesis.....	2059
Methane-hydrogen-carbon monoxide mixtures, flame stability limits of.....	3172	Micantite, production.....	7963
Methane mixtures, flame stability limits of.....	3181	Micelle concentrations, critical, polyoxyethylated nonionic detergents.....	3830
Methane-oxygen, low-pressure explosion limit, dependence on reaction vessel surface.....	7468	Michelson refractometer, modified, description.....	3189
Methane-oxygen-nitrogen flames, quenching and stability data.....	3399	Michigan, Bessemer, Ironton Mine, shaft signalling system.....	1120
Methane-oxygen reaction, kinetics.....	2718	Cleveland-Cliffs Iron Co., mine rescue station.....	7526
Methanol, calculating equilibrium, reliability of heat data.....	7323	Detroit, air pollution control, progress.....	4923
catalytic decomposition.....	7321	Negaunee, Athens mining system, subsidence resulting from, discussion.....	1489
concentration, control.....	6925	Norway, Brirer Hill mine, ground movement.....	0460
equilibrium with carbon monoxide and hydrogen.....	7320	Michigan Limestone and Chemical Co., Sentinels of Safety trophy award.....	1403
ethanol in.....	8235	Microeconomic theory, mathematical approach, review.....	8035
exposure, control.....	6925	Microelectrophoresis cells, principles.....	7720
from hydrogen and carbon monoxide.....	985	Microgeology, Brandon lignite, Vermont.....	7817
dimethyl ether.....	986, 987	Microphone, role of, in underground communication.....	3128
in dogs, after inhalation and internal administration.....	8544	Micropyrometer, determining fusibility of coal ash, comparison with other methods.....	2482, 2345
on coal, adsorption.....	4686	use.....	
production, use of water gas.....	2336	Microsampling, precision, relation to petrographic analysis by fragment counting.....	1185
synthesis, comparative values, study.....	963	Microscope, field emission, surface reaction investigation.....	4459
discussion.....	3685	surface reaction investigation, oxygen with carbon on tungsten.....	4460
from water gas.....	8553	floatability of gold, determination, effect of mill grinding on.....	3516
Methanol antifreeze, relation to poisoning.....	7322	mounting flotation products for.....	3944
Methanol catalysts, reactions that occur on.....	6882	petrographic, photographic technique.....	7048
Methanol poisoning, discussion.....	2403	use in ore dressing.....	3512
use of gas for.....	1826	use in water filter selection.....	3520
Methyl bromide, fumigation of food with.....	6833, 6850	Microscope lamp, fluorescent, description.....	589
Methyl bromide vapors, physiological response to exposure.....	6833, 6850	Microscopic analyses, coal, transmitted and reflected light methods, comparison.....	7629
Methyl chloride, in air, determination.....	6001	Microscopic measurement, average size particle.....	6103
in gas mixtures, determination.....	87	pigment particles.....	6104
safety, methods.....	6917	Microscopy, ore-dressing, for grain size in complex ores, estimation.....	3508
Methyl chloride poisoning, ingestion with food and water, possibility.....	8557	Microsyringe, for small liquid volumes.....	4012
Methyl chloride vapors, physiological response to exposure.....	6833, 6850	Mid-Continent oil field, use of petroleum hydrology.....	3553
Methyl deuteride and methane, conversion of deuterium to.....	5892	Mid-Continent region, oil, secondary recovery, research.....	2659
Methyl ether, decomposition.....	4218	Midjet impinger, dust sampling apparatus, Bureau of Mines.....	6918
Methyl ether binary mixtures, decomposition.....	4218	Mill tailings pollution, Coeur d'Alene River and Lake, Idaho.....	8348
Methyl formate-air mixtures, explosive properties.....	4129	Milling, metallurgical practice, Tri-State district.....	1288
Methyl formate vapors, response of guinea pigs to.....	6938	ores, preparation.....	1764
Methyl propyl ketone vapors, response of guinea pigs to.....	6550	Tri-State district, problems.....	128
Methylbutane, heat of vaporization, experimental.....	8099	Milling equipment, improvements.....	1257
rotational conformation.....	5012	Milling methods, description.....	1282, 1284
thermodynamic properties.....	8012, 7067	discussion.....	3149
vapor heat capacity, experimental.....	8099	Tri-State district, crushing.....	124
vaporization.....	7087	outlook.....	126
vibrational assignment.....	8012	trends.....	6875
Methylbutene vapor pressure.....	7049	Mines, abandoned, entering, hazards.....	6133
thermodynamic properties.....	7072	accident cost, comparison with accident prevention cost, discussion.....	2823
Methylbutyl ketone vapors, response of guinea pigs to.....	6938	air flow.....	5029
Methylcyclohexane, thermodynamic properties.....	1918	blasting, by electricity.....	6717
Methylcyclopentane, thermodynamic properties.....	1918	use of picric acid.....	5507
Methylcyclopentane-trione, hydrogenation.....	5864	boiling, safety.....	7691
Methyl-ethyl chloride-methyl-ethyl bromide mixtures, flammability.....	4086	bumps in, Bureau of Mines studies.....	7692
Methylfluorene, cyclodehydrogenation from dimethylbiphenyl.....	5885	Nova Scotia, discussion.....	6488
Methylphenol, distillation, method, patent.....	2188	capacity, liquidation.....	7881
separation by.....	2190	cooperation between.....	798
oxidation, by pseudomonads.....	6631	costs.....	7978
Methylpentanes, heats of vaporization, experimental.....	8099	dust control, Arizona.....	4854
vapor heat capacities, experimental.....	8099	electricity, safe use.....	1199
Methylpropanethiol, rotational isomerism.....	7003	Europe, timbering.....	6458
thermal decomposition.....	7722	first aid in.....	8016, 8017
thermodynamic properties.....	7003	first aid training, accident reduction.....	2034
Methylpyridine, properties.....	3582		
purification.....	3582

Potash compound, new..... 1368	effect of surface roughness..... 4696
Potash industry, annual review..... 8227	prediction of voids..... 4997
Potash mines, potential production, discussion..... 5942	notogram..... 8199

Item	Item
Pressure feeder, for powdered coal and finely divided solids.....	383
Pressure-gasification pilot plant, use with pulverized coal and oxygen, operating results.....	7534
Pressure pipe lines, flow of gas through.....	6327
Pressure pump, for circulating gases in a closed system.....	4354
Pressure zones, mine rock pillars, determination.....	5764
Price plan, premium, cost and results.....	5843
Primers, high explosive, description.....	7018
inert, use in electrical blasting.....	5139
safety, blasting with, notes.....	6482
Prism, for spectrochemical analysis, comparison with grating data.....	7304
Privies, mine, underground.....	5337
Proberite, occurrence, Oklahoma.....	3205
Process heat, from nuclear reactors.....	6111
nuclear, high-temperature systems for.....	5045
nuclear energy, uses.....	6112
Process industries, methods.....	471
Process research, costs, study.....	4244
Process unit, operation cost, determination.....	4248
Producer gas, ammonia in.....	5908
from crude oil, manufacture.....	3137
from low-grade fuels.....	2205
sulfur in.....	1480
Production, control, engineering problem.....	4368
program.....	4369
increase through cooperation.....	6778
Propane, electroreduction of acetone to.....	3026
for gas enrichment, patent.....	5795
heat of combustion.....	3855
Propane, oxidation.....	3164
removal of asphalt from crudes.....	1937
slow combustion, discussion.....	4766
sulfur resistance, determination.....	7058
thermal decomposition.....	2723
use.....	1473
vapor pressures, effect of temperature.....	1047
Propane-air flames, application of theory of ignition, quenching, and stability.....	3399
Propane-air fuels, with natural gas, interchangeability of.....	3183
Propane mixtures, flame stability limits of.....	3181
Propane-oxygen-nitrogen flames, burning velocities.....	3399
quenching and stability data.....	3399
Propanethiols, thermal decomposition of.....	7722
thermodynamic properties.....	3847
Propulsive strength, gelatin dynamite, relation to oxygen balance.....	6109
Propylmethyl ketones, response of guinea pigs to vapors of.....	5550
Propylene, critical constants.....	7104
thermal decomposition.....	2723
vapor pressure.....	7104
Propylene dichloride-air mixtures, explosive properties.....	4130
Prospect holes, churn-drill, sampling.....	5431
Prospect openings, ventilation, discussion.....	297
Protective devices, respiratory.....	6932
Pseudoisotopy, studies in.....	4799
Pseudonoris, methylnaphthalene oxidation by.....	6631
Psilomelane, identification.....	1385
Psychological tests, performance, effect of exhaust gas.....	1909
Psychrometry, chamber for, use.....	6827
Pulmonary ailments, effect of coal dust.....	6758
Pulmonary infection, in pneumoconiosis, bacteriologic study, experimental.....	6202
Pulp density, as factor in flotation.....	6639
Pulverized-coal furnace, turbulence and combustion, discussion.....	5713
Pulverizer, coal, effects of grindability, discussion.....	424
laboratory, for measuring net power.....	1256
Pumps, high-pressure, for pilot plant service.....	3598
high-pressure injection, for hydrogenation service, development.....	1906
pressure, for circulating gases in a closed system.....	4354
thyatron control.....	844
Toepfer, automatic.....	6159
Puzzolan-portland cements, fineness, determination, hydrometer.....	6657
Pycnometer, hydrocarbon liquids, density measurement.....	7359
use as volumeter.....	7030
Pyridines, chemical thermodynamic properties.....	6015
infrared spectroscopy, determination.....	1387
infrared spectra, correlations.....	1386
methyl-substituted, ionization constants and partition coefficients.....	3006
properties.....	3532
purification.....	8532
total, ultraviolet spectrophotometric determination.....	1174
vibrational assignment.....	6015
Pyridine bases, extractions, in spectrophotometric determination.....	1173
Pyrite, coal, chemical data.....	8475
from washery refuse, recovery.....	3733
gold in, form.....	3497, 3498
occurrence.....	3497-3499
heat capacity, at low temperatures.....	139
heat content.....	1466
in clay, composition, effect of rate variation of gas flow on.....	3988
Pyrite-coal resources, availability.....	8730
Pyrolysis, anthraxylon, from bituminous coal.....	6072
ethane.....	7508
methane, data.....	7358
synthesis of acetylene.....	7508
natural gas, production of benzol.....	7357
oil shale, in gas-combustion retort.....	6207
Pyrometry, in blast-furnace work.....	6067
Pyrophoric metals, fire control.....	829
Pyrophyllite, annual review.....	3963, 5215
Pyrotannic acid method, determination of carbon monoxide in air and blood.....	6843
Pyrrhotite, ferromagnetic particles, magnetic properties.....	1568
orientation.....	1568
Pyrrhotite ores, magnetic concentration.....	648
Pyrolysis, from shale oil, identification and isolation.....	4024
properties.....	3532
purification.....	3532
Pyrolytic, chemical thermodynamic properties.....	6014
liquid, effect of pseudorotation and unusual thermal anomaly.....	8014
properties.....	3532
purification.....	3532
Quadrant-chart-type monograph, application to clay slips.....	8090
Quantum statistics, approximate variational principle.....	6087b
Quarries, cost, progress, study.....	7669
explosions, from steam-shovel sparks.....	3831
handbook and directory review.....	7662
military, techniques and equipment.....	7670
Quarry accidents, annual review.....	12, 33
elimination.....	8420
Quarry blasts, crushed stone, earth vibrations from.....	7661
seismic phenomena shown by.....	7668
Quarry industry, injury experience.....	5460
safety, progress.....	39, 44, 45
Quarry, methods, American, limestone.....	734
effect of rock structures on.....	733
work review.....	732
Quartz, classification, data.....	8358
crushed, measured surface, relation to sieve sizes.....	3146
crushing, work input, relation to surface produced.....	3147
diamond drilling, in Colo.....	88
heat capacity, at low temperatures.....	140
heat of formation.....	3908
in hot alkali waters, relative solubility.....	3258
polyoxyethylated detergents on, adsorption.....	1946
purification of.....	8651
solubility, in superheated steam.....	575
utilization.....	8651
Quartz-acetone system, electrokinetic relations.....	4879
Quartz crystal, annual review.....	364
Quartz particles, surface measurement.....	3145
Quartz powders, ethylene oxide-propylene oxide condensate on, adsorption, radioisotope study.....	3649
Quebec, asbestos, developments.....	718
source of United States iron ore.....	8254
Quebracho extract, use, to prevent embrittlement cracking.....	585
Quebracho, in drilling fluid, substitute for.....	1097
Quicksilver, from furnace gases, condensation.....	1980
Quicksilver. See also Mercury.....	
Quicksilver industry, status.....	5103
Quicksilver ores, sampling and estimation.....	7013
Quicksilver resources, Arizona.....	4639
Quinacridone, oxidation, bacterial, aromatic intermediate.....	6027
Quinolines, infrared spectral-structural correlations.....	4204
methyl-substituted, partition coefficients and ionization constants.....	3006
ultraviolet spectrophotometric determination.....	1174
Quinone-iron-tricarbonyl complex, in organic synthesis, significance.....	7434
Radial distribution function, variational theory.....	6529
Radiant-heat absorbing surfaces, furnaces, coal, temperature in.....	7210
Radioactive iodine tracer, waterflooding.....	8168
Radioactive isotopes, in petroleum, production research.....	8172
Radioactive mineral placers, Idaho.....	4469
Radioactive residues, from Incinerator, disposal.....	1436
Radioactive tracer, technique.....	8173
benefits to waterflooding.....	8174
Radioactive waste materials disposal, air pollution control.....	4929
Radioactivity, intensity over oil pools, causes of variations.....	5369
uses, review.....	1573
Radio communication, mine, underground.....	2196
Radio insulators, use of tales in.....	4479
Radioisotope tracers, in industry, monitoring.....	262
Radionometry, errors in temperature measurement by.....	6388
Radio signals, underground, transmission.....	4015
Radiotracer, petroleum vapor pressure, research, Bureau of Mines.....	8138
Radium, annual review.....	3032-3034, 3038, 5403-5406, 5410
atomic weight of emanation.....	4779
conservation, data.....	4785
coprecipitation with barium sulfate.....	1890
data.....	4706
determination, method.....	4794
emanation, chemical action.....	4781
collection for therapeutic use.....	4783
coloring and thermoluminescence of glass.....	4784
electroscopic determination.....	6082
heterogeneous equilibrium of hydrogen and oxygen with.....	4762
spectrum.....	4788
extraction, Bureau of Mines.....	5886
from carnotite, production, possibilities.....	1892
outlook.....	5989
production.....	4797, 5396
