### LIST OF JOURNAL ARTICLES BY BUREAU OF MINES AUTHORS

PUBLISHED JULY 1, 1910, TO JANUARY 1, 1960

#### With Subject Index

Bureau of Mines Special Publication 2-60
Compiled by Mae W. Hardison and Opal V. Weaver

#### **FOREWORD**

This volume is a comprehensive listing and index of nearly 9,000 articles, which were written by Bureau of Mines personnel and have been published during the past 50 years in scientific and technical journals, the trade press, convention proceedings, and other non-Bureau publications. It supplements the "List of Publications Issued by the Bureau of Mines, From July 1, 1910, to January 1, 1960." Together these lists provide a definitive index to a wealth of literature concerning mineral resources, economic and technologic progress of the mineral industries, developments in mine-safety and -health, and scientific research in the extraction, processing, and utilization of minerals and mineral fuels.

These articles are descriptive of the work undertaken by the Bureau in fulfillment of its mission. It is fitting that this catalog should be published during the 50th anniversary of the Bureau's establishment.

MARLING J. ANKENY, Director, Bureau of Mines
