

I. C. 7417,  
July 1947.

INFORMATION CIRCULAR

UNITED STATES DEPARTMENT OF THE INTERIOR - BUREAU OF MINES

ANNUAL REPORT OF RESEARCH AND TECHNOLOGIC WORK ON COAL

Fiscal Year 1946<sup>1/</sup>

By A. C. Fieldner<sup>2/</sup> and P. M. Ambrose<sup>3/</sup>

CONTENTS

	<u>Page</u>
Introduction .....	5
Summary .....	6
Acknowledgments .....	9
Origin, composition, and properties of coals .....	11
Inspection, sampling, and analysis .....	11
Analyses of Alaska coals .....	13
Data on coals in District No. 9, western Kentucky .....	13
Constitution, properties, and analytical methods .....	14
Extractable waxes in United States lignites .....	14
Analyses of miscellaneous materials .....	14
Electron microscope studies of coal and of Fischer-Tropsch catalysts .....	16
A method of petrologic analysis .....	17
Inert organic matter in eastern coals .....	21
Coal mining .....	27
Experimental mine and dust explosions .....	27
Demonstrations and lectures .....	27
Inflammability and explosibility of industrial dusts and powders .....	27
Release of dust-explosion pressures to prevent structural damage .....	28
Pressure-relieving capacities of glass .....	30
Technical assistance and service to others .....	31
Investigation of coal deposits .....	31
Coosa Coal Field, Alabama .....	31
Coal reserves in areas where fuel supplies are critical .....	31
Toledo lignite deposit, Lewis County, Wash. ....	31
Meta-anthracite in Newport and Providence Counties, R. I. ....	32
Coos Bay, Oregon .....	33
Alaska .....	34
Coaldale, Nev. ....	34

<sup>1/</sup> The Bureau of Mines will welcome reprinting of this paper, provided the following acknowledgment is used: "Reprinted from Bureau of Mines Information Circular 7417."

<sup>2/</sup> Chief, Fuels and Explosives Branch, Bureau of Mines, Washington, D. C.  
<sup>3/</sup> Assistant chief, Fuels and Explosives Branch, Bureau of Mines, Washington, D. C.

## CONTENTS (Cont'd.)

	Page	Prepar
Coal mining (cont'd.)		W
Mining methods and practices .....	34	
A stripping operation in Illinois .....	34	
Extraction of pillars .....	35	R
Mine mechanization .....	35	H
Australian coal mining .....	38	
Eickhoff shearing machine .....	39	
The coal planer .....	39	
Scraper-slide and shaker-conveyor loading machine .....	40	Storage
Effect of scrubbing upon the odorous and irritating con-		
stituents of Diesel exhaust gas .....	40	C
Performance of Diesel engines .....	43	
Mine rescue telephones .....	43	
Allaying mine dust .....	44	I
Hazards of trolley-locomotive haulage .....	44	J
Diesel locomotive tests .....	45	K
Liquefied natural-gas fire in Ohio .....	45	L
Procedure for testing self-contained breathing apparatus ..	45	M
Single-shot blasting units .....	46	N
Coal-mine health hazards .....	46	O
Use of explosives and gaseous explosions .....	47	
Increase in charge limit of permissible explosives .....	47	
Effect of sheaths upon the gaseous products from permissi-		
ble explosives .....	49	
Effects of type of ammonium nitrate upon the gaseous prod-		Carbo
ucts from sheathed permissible explosives .....	50	
Sensitivity of explosives to initiation by electrostatic		
discharges .....	51	
List of permissible explosives .....	51	
Consumption of permissible explosives .....	52	
Field samples of permissible explosives .....	52	
Miniature-cartridge test for detonators .....	53	
Technical assistance and services to others .....	53	
The electronic chronoscope .....	53	
Ignition temperatures of compounds in air and oxygen .....	54	
Limits of inflammability of substances in air .....	55	
Extinction of gasoline flames by inert gases .....	55	
Limits of inflammability and ignition temperature of naph-		
thalene .....	57	
Effect of pressure upon the explosibility of mixtures of		
acetylene with water vapor, air, and hydrocarbons .....	58	
Extinction of flames by the addition of helium .....	60	
Preparation of coal .....	60	
Metallurgical coal from high-sulfur coal .....	60	
Electrostatic treatment of fine coal .....	61	
Preparation characteristics of Maryland coals .....	61	
Coal-preparation practice in Western Europe .....	61	

## CONTENTS (Cont'd.)

	<u>Page</u>
<b>Preparation of coal (cont'd.)</b>	
Washability of coals from the Matanuska Field, Alaska .....	62
Results obtained in washing .....	62
Removing of extraneous material from industrial and domestic coals .....	64
Hand preparation of coal .....	64
Storage of coal .....	66
Storage of low-rank fuels .....	66
Utilization of coal .....	68
Combustion .....	68
Fuel-engineering service .....	68
National Fuel Efficiency Program .....	70
Boiler feedwater conditioning .....	71
Boiler water research .....	72
External corrosion of furnace-wall tubes .....	73
Smoke abatement .....	75
Packaged fuel containing anthracite fines .....	75
Utilization of mixtures of bituminous coal and anthracite .....	76
Ash-removal, domestic stoker tests .....	77
Analysis of size distribution in broken coal .....	79
The measurement of heat absorption in the primary furnace of a central station boiler .....	79
Automatic water heater .....	80
Mineral wool from Rhode Island anthracite .....	81
Wartime utilization of coal in Germany .....	82
Carbonization and gasification .....	83
Laboratory tests of coking coals .....	83
Alaskan coals .....	84
Chilean coals .....	84
Chinese coals .....	85
Sardinian coals .....	85
The free-swelling index of coal .....	86
Wartime progress in coke production .....	87
Survey of carbonizing properties of American coals .....	87
Results of carbonization tests .....	88
Chilean coals .....	95
Texas lignite .....	95
Peruvian coal .....	95
Powellton and No. 2 Gas-Peerless coals .....	96
Beckley coal .....	97
Durability of coking power of various coals .....	99
Oxidizing properties of bituminous coals .....	100
Plasticity of coal .....	104
Swelling properties of coal during the coking process .....	107
Blending properties of coal .....	110
Bureau of Mines - American Gas Association (BM-AGA) apparatus and procedure .....	111

## CONTENTS (Cont'd.)

	Page	F
Carbonization and gasification (cont'd.)		
• Bulk-density research .....	112	1
• Gasification of subbituminous coal and lignite .....	112	1
• Gasification processes using oxygen .....	114	1
Liquefaction .....	117	1
• Reaction of natural gas and steam .....	118	1
• Catalysts in synthetic liquid-fuel processes .....	119	1
• Synthesis of hydrocarbons from hydrogen and carbon monoxide .....	126	1
• Fischer-Tropsch process development .....	126	2
• Coal hydrogenation .....	128	2
• Experimental plant .....	128	2
• Experiments in small autoclaves .....	128	2
• Identification of products of coal hydrogenation and study of typical reactions involved in the process .....	133	2
• Characterization of light oil .....	134	2
Foreign fuels .....	135	2
• Literature translations and abstracts .....	140	2
• Coal-hydrogenation information from captured German documents ..	141	2
 <u>ILLUSTRATIONS</u> 		

Fig.		Following page	F
1.	Electron micrographs of varieties of Kieselguhr proposed as carriers in cobalt catalysts in the Fischer-Tropsch syn- thetic liquid-fuel process .....	16	27
2.	Electron micrographs of phases of hydrated iron oxide occurring in catalysts for the Fischer-Tropsch synthetic liquid-fuels process .....	16	28
3.	Effect of unrestricted relief vents upon pressures produced by explosions of various dust clouds .....	28	30
4.	Effect of unrestricted relief vents upon pressures produced by dust explosions of aluminum and magnesium powders ...	28	31
5.	Part of area explored at Toledo, Wash. ....	32	32
6.	Diamond drill-hole locations at Portsmouth, Newport County, R. I. ....	32	33
7.	Map of mine, Graphite Mines, Inc., Cranston, R. I. ....	32	34
8.	A mobile coal-loading machine, track-mounted .....	36	35
9.	Electric-powered stripping shovel .....	36	36
10.	Planned reforestation of spoil banks .....	36	37
11.	Nitrogen recovery in Bichel gage and C-J apparatus .....	42	38
12.	Carbon recovery in Bichel gage and C-J apparatus .....	50	39
13.	Incompleteness of reaction as shown by the oxygen require- ment ratio .....	50	40
14.	Electronic chronoscope for measuring velocities of detona- tion .....	50	41
15.	Yield, ash content, and efficiency in relation to settings on product control scale of jig .....	54	42
