

Fig. 4.10 (b) Predicted void ratio distribution.

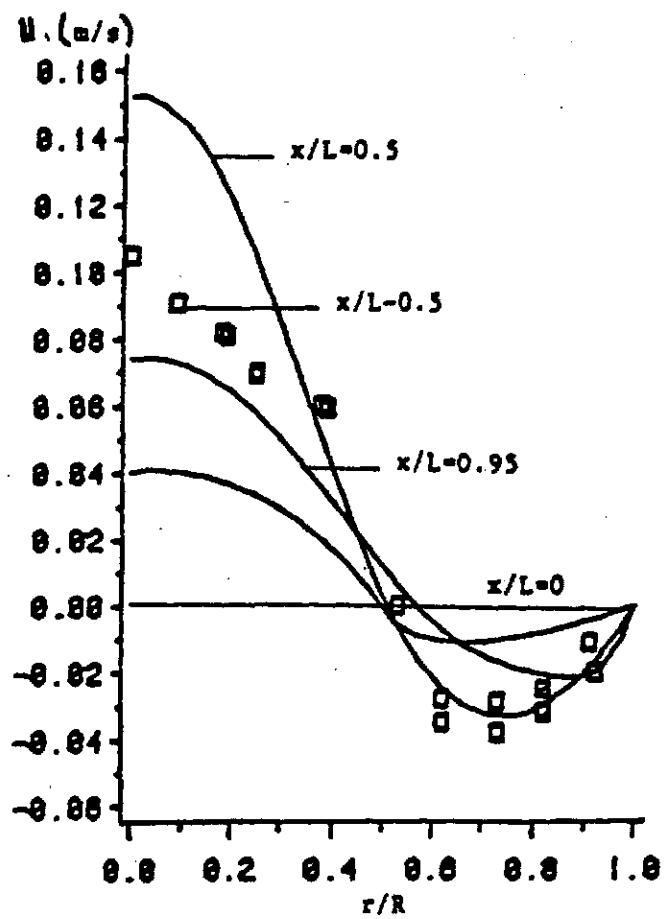

Fig. 4.10 (c) Liquid velocity profile
 □ (experiments by Rietema and Ottengraf, 1970)

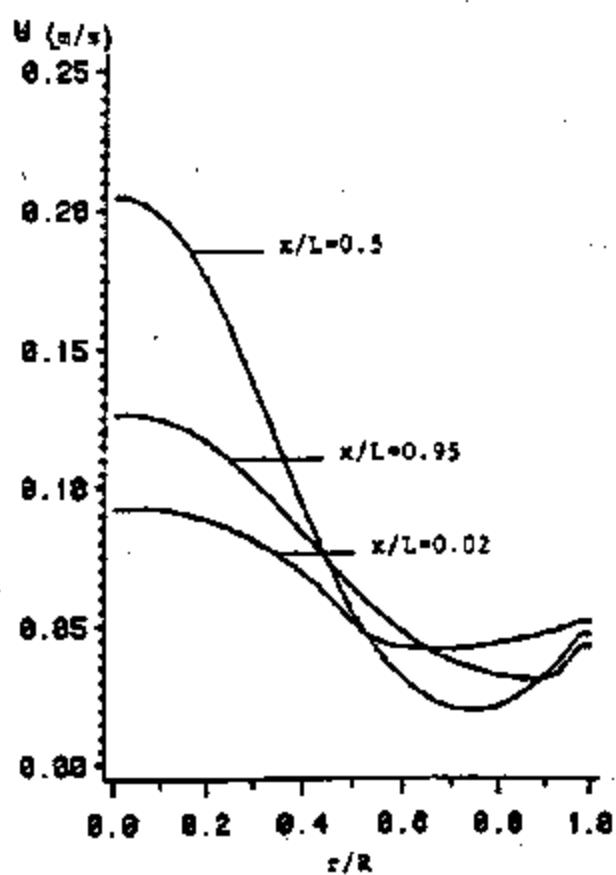

Fig. 4.10 (d) Gas velocity profile.

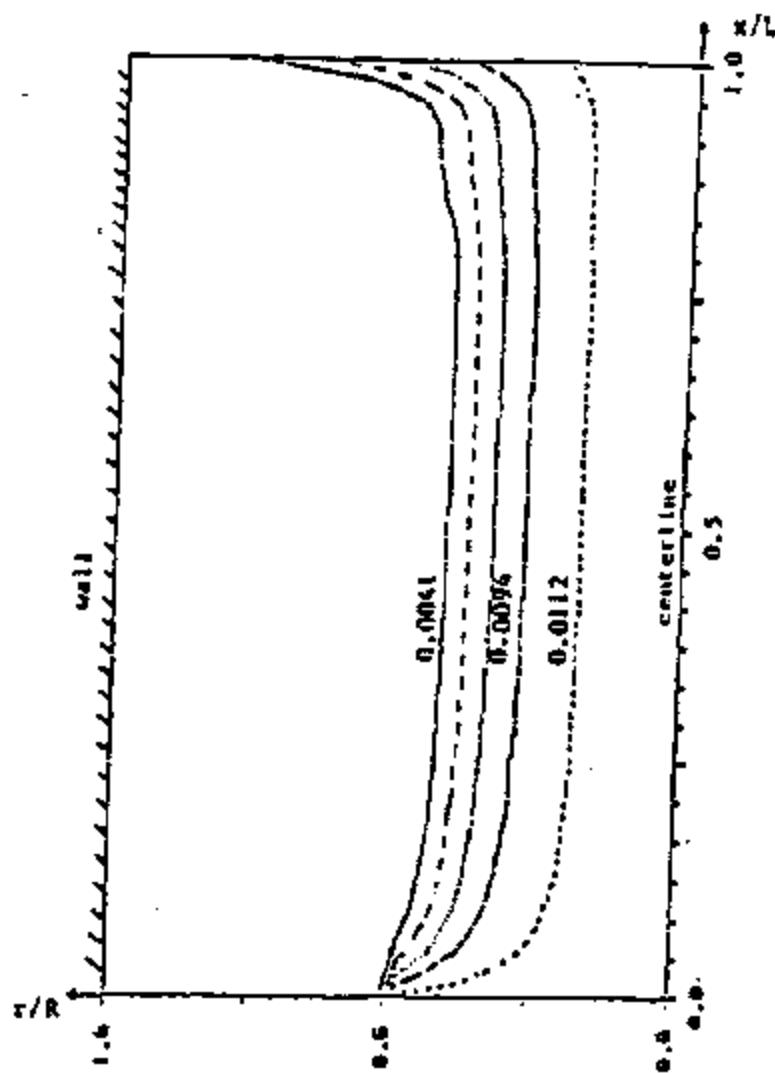

Fig. 4.10 (e) α -contours

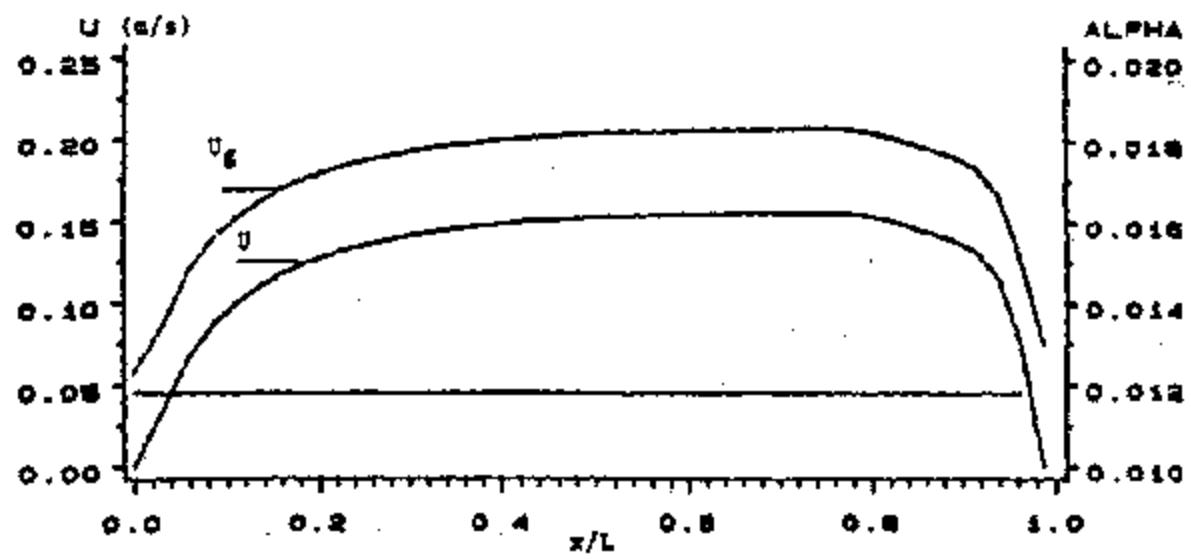

Fig. 4.10 (f) Liquid velocity, gas velocity and α distribution along the centerline of the column with $r_s/R = 0.45$.

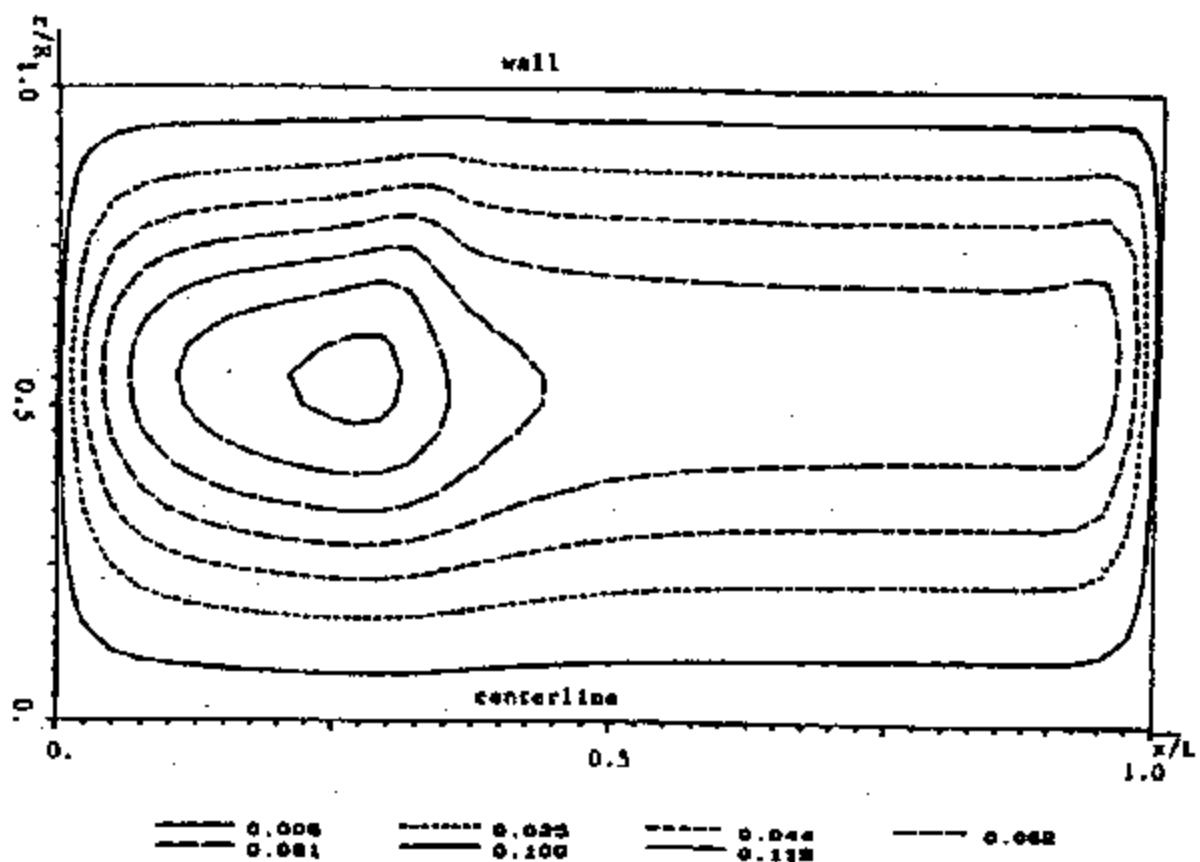

Fig. 4.11 (a) Calculated circulation pattern
 $(\alpha$ is calculated from transport equation (4.28) with $r_p/R = 0$).

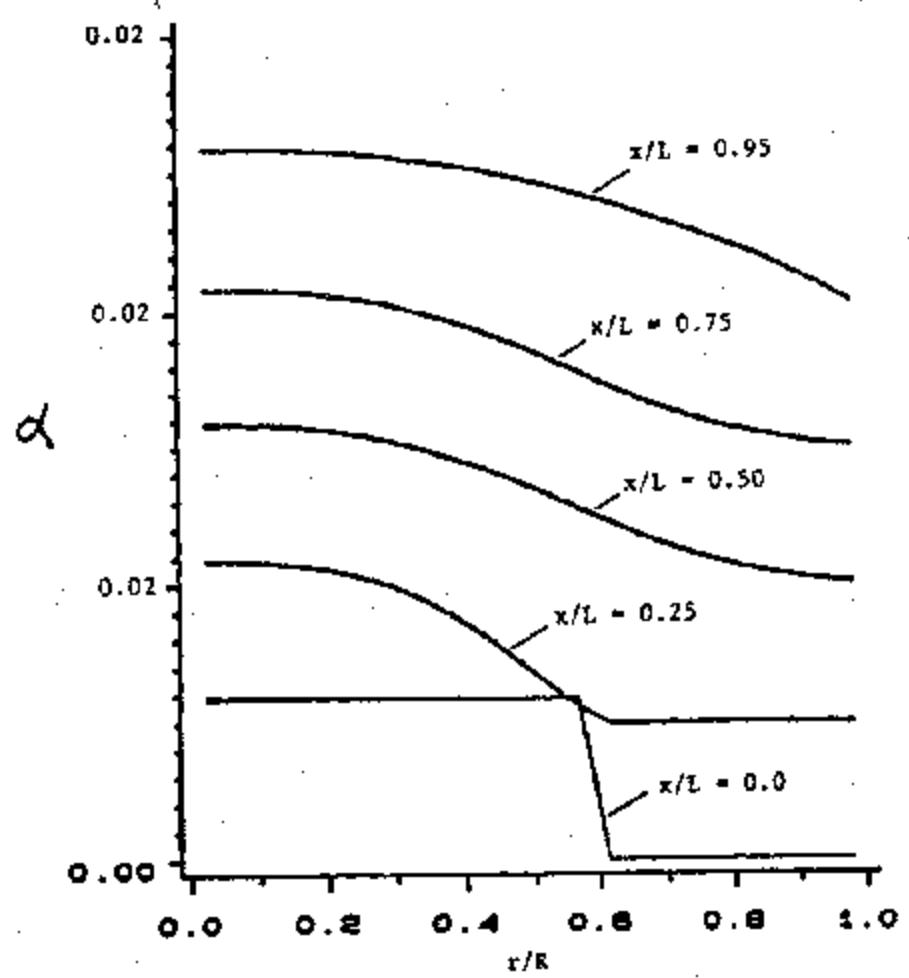

Figure 4.11 (b) α -distribution; $r_s / R = 0.60$

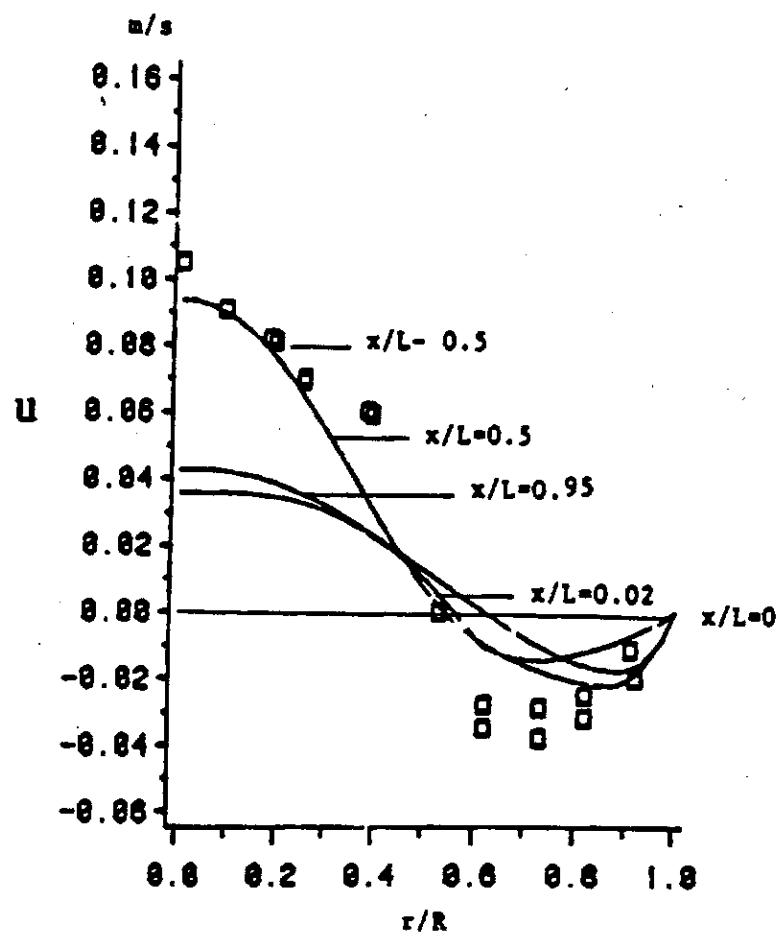

Fig. 4.11 (c) Liquid velocity profile
 □ (experiments by Rietema and Ottengraf, 1970)

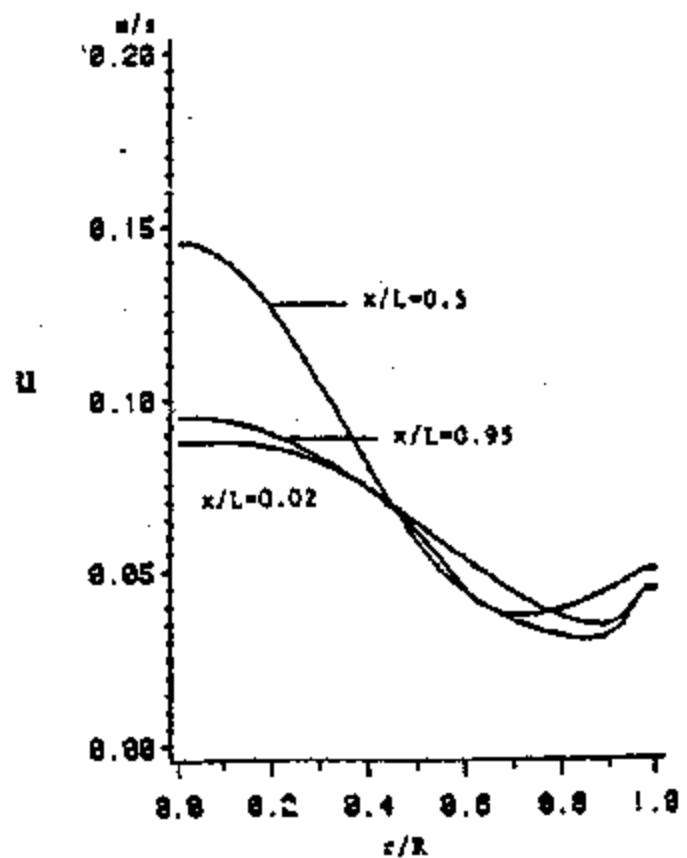

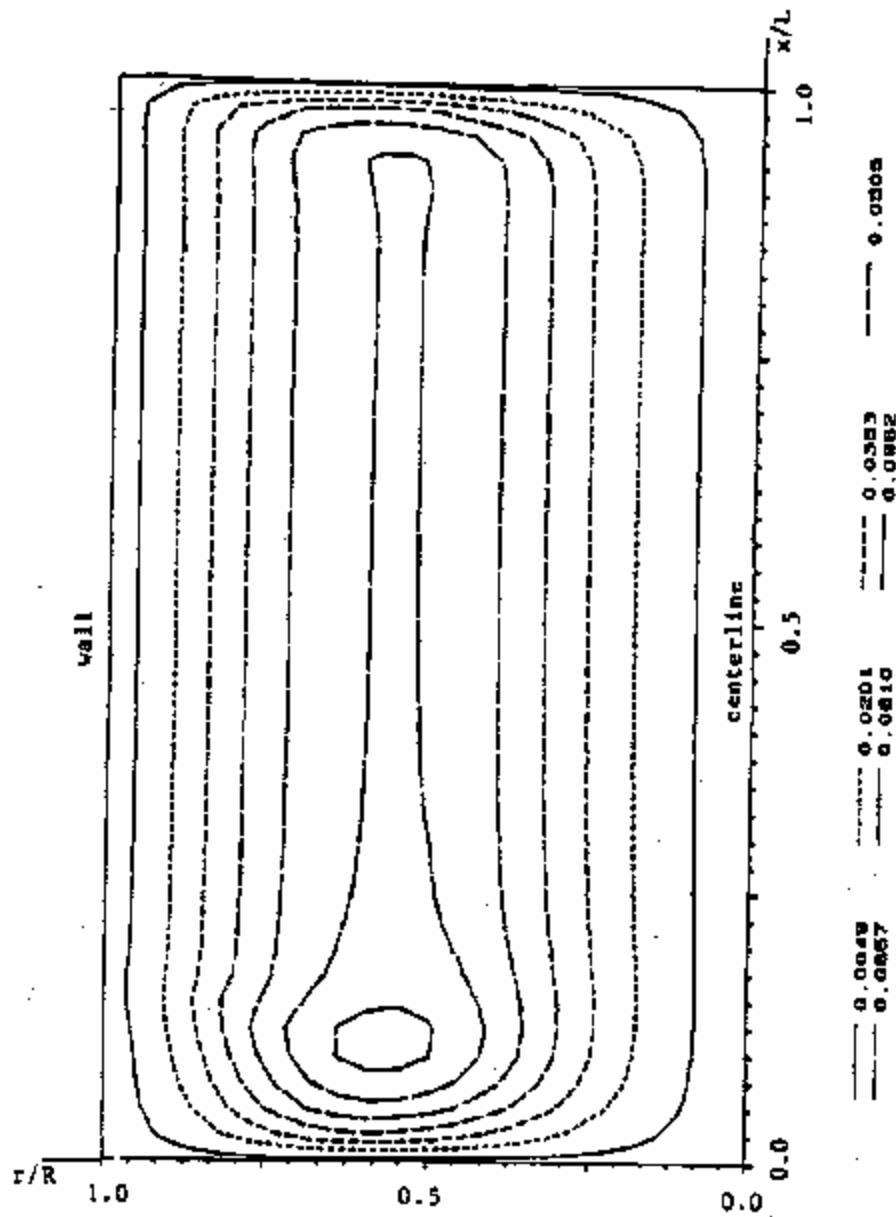

Fig. 4.11 (d) Gas velocity profile

**Fig. 4.12 (a) Calculated circulation pattern
(α is calculated from transport equation (4.26) with $r_g / R = 0.7$)**
