

ANNEX III

SUMMARY OF DATA ON
"UNKNOWN" SYNTHETIC PLANTS
IN AXIS EUROPE

In the tabulation herein submitted is summarized available information bearing on "unknown" synthetic plants -- that is, plants with regard to which available information is indefinite or incomplete, but which, in total, are recognized as rather substantial contributors to over-all supply.

ANNEX III

SUMMARY OF "UNKNOWN"

SYNTHETIC OIL PLANTS

| | Location | Process | Output Cap. | Date Completed | Remarks |
|-----------------------|------------------------------|---------|-------------|----------------|---|
| <u>Austria</u> | 1. Linz | ? | ? | Op. (?) | Said to be operated by Gewerkschaft Morgenstern based on coal from Rheinsdorf. |
| | 2. Praterspitz | ? | ? | ? | |
| <u>Bulgaria</u> | 3. Badesta (?) | LFC (?) | 33,000 | 1944 (?) | |
| (1) | | | | | |
| <u>Czechoslovakia</u> | 4. Aussig | ? | ? | ? | |
| | 5. Falkenau | ? | ? | ? | British say no plant here. |
| | 6. Kaaden | ? | ? | ? | " " " " " |
| | 7. Schlachenwert | ? | ? | ? | |
| <u>France</u> | 8. Bouches du Rhone(?) (2) | | 50,000 | 1945 | "Corp. Centr. d'Hydrogena- tion et de Synthese "Paris" |
| | 9. St. Hilaire (?) | ? | ? | 1945 ? | "Soc. Chim. de la Gr. Paroisse" |
| | 10. Gardanne | H | 35-50,000 | 1945 | "Soc. de Combust. et Carburants Nationaux". Said to be operating at part capacity of 1,500 T/Hr from "shortly after Apr. 1942. |
| <u>Germany</u> (1) | 11. Borna | ? | ? | ? | 12 Mi. N.E. of Zeitz. May be L.T.C. |
| | 12. Niederrhein | ? | ? | ? | Near Mainz. Unlikely (?) |
| | 13. Weisenfels (Freyburg) | ? | ? | ? | About 10 Mi. S of Leuna on the River Saale and about same distance S. of Zeitz. May be L.T.C.? |

(1) Excluding Silesia

(2) Process is said to be combination of LTC and methanol synthesis (probably also hydro ??)

ANNEX III (Contd)

SUMMARY OF "UNKNOWN"
SYNTHETIC OIL PLANTS

| | Location | Process | Output Cap. | Date Completed | Remarks |
|----------------|--------------------|---------|-------------|----------------|---|
| <u>Silesia</u> | 14. Aptheide | F.T. | 42,000 | ? | |
| | 15. Annaberg | H | 120,000 | ? | |
| | 16. Brieg | H | 90,000 | ? | |
| | 17. Buchenau | H | 144,000 | ? | |
| | 18. Chorzów | ? | ? | ? | Unable to locate on map. There is a small synthetic N ₂ plant here. |
| | 19. Deschowitz | ? | ? | ? | May be reference to exist- ing F.T. Plant in Deschowitz. |
| | 20. Gleiwitz | ? | ? | ? | |
| | 21. Heydebrech | H | 66,000 | ? | 3 Mi. from Blechhammer S., may be ancillary to that plant. |
| | 22. Hoheneibe | H | 72,000 | ? | |
| | 23. Kieferstacdtel | H | 48,000 | ? | May be same as 20. |
| | 24. Krappitz | H | 84,000 | ? | L.T.C. for Blechhammer S (?) |
| | 25. Kunzendorf | H | 144,000 | ? | |
| | 26. Laurahütte | H | 120,000 | ? | May be same as 18. |
| | 27. Mirov | ? | ? | ? | Swiss compressors are re- ported to have been de- livered for this plant and for Plants 28 & 29. |
| | 28. Tarnów | ? | ? | ? | Location is near large N ₂ plant in Moscize. See Remark under Plant 27. |
| | 29. Waldenburg | ? | ? | ? | See remarks under Plant 27. |
