LIST NO. 5

Compiled by

J. L. Wiley and H. C. Anderson

## PREFACE

The first issue of the "List of Publications Received in the Library of the Foreign Synthetic Liquid Fuels Division..." covers the reports received in the Division prior to June 15, 1946. List No. 2 covers reports received from June 16 to September 30, 1946. List No. 3 covers reports received from October 1, 1946 to January 31, 1947. List No. 4 covers the reports received from January 31, 1947 to August 30, 1947. This issue, No. 5, covers the reports received in the Library of the Foreign Documents Group from September 1, 1947 to August 31, 1948. The reports are listed alphabetically by author under the issuing agency. Material of interest to the various branches of the Bureau of Mines is included, in addition to the reports relating to synthetic fuels.

The reports appearing in this list are available for reference only at the Bureau of Mines, Office of Synthetic Liquid Fuels, Research and Development Branch, Technical Reports Section, Foreign Documents Group, 4800 Forbes Street, Pittsburgh 13, Pa., daily except Saturdays, Sundays, and holidays, from 8:00 a.m. to 4:30 p.m. When requesting copies please specify author, title, and the Information Circular number of the report.

All the reports may be purchased from the Office of Technical Services, Department of Commerce, Washington 25, D. C. The author, title, and "PB" number, where it appears, should be given on every request for reports from the Office of Technical Services, who will furnish the cost of individual items on request.

The Office of Technical Services "PB" numbers, as well as other numbers under which the reports may have been issued, have been given wherever available. It should be borne in mind, however, that a report not having a "PB" number may have had one assigned since the list was compiled.
