

BAG      TARGET

INDEX - MICROFILM - REEL - 8L  
(Orig. Ident. Reel 4E)

- 3996
- 137. Completed
  - 138. Analysis of cracked distillates
  - 139. Effect of water content on the properties of greases  
(in Dutch)
  - 140. Preparation of rust preventive grease (in Dutch)
  - 141. Analysis and characterization of solid paraffin hydrocarbons
  - 142. Summary report on the work on hydrocarbon peroxides during  
the second half of 1940 (in Dutch)
  - 143. Summary report on work on synthetic lube oils from 1933 to  
1937
  - 144a. Principles and limits of accuracy of the analysis of  
hydrocarbons - Part I
  - 144b. Same - Part II
  - 145. The polymerization of propylene in the presence of AlCl<sub>3</sub>
  - 146. Improvement of the oxidation stability of synthetic oils  
by copolymerization with aromatics
  - 147. Same (in English)
  - 148. Physical constants of the polymerization products of olefins
  - 149. Investigation of the oxidation stability of lube oils  
including synthetic lubes
  - 150. Monthly progress report, March-April 1944 (Incomplete)
